Member-Owned Service - Proud

RUSSELL WALDNER, GENERAL MANAGER

I enjoyed spending the best Saturday in June with 148 registered Members-Owners and their guests for the 83rd annual meeting.

The meeting was another successful annual meeting thanks to our entire organization. The Directors that you elect and their steadfast commitment to the Membership. The employees and their professional effort to make Carbon the best Cooperative for the membership. The associates that Carbon partners with to complete our mission and advocate for the Membership. And

The Membership that expect and require outstanding performance from their cooperative. Our entire organization shined on the Best Saturday in June!

We received some excellent suggestions for improvement and they will be implemented. Again this year we were unable to award the \$1500, \$1000, or \$750. One lucky member did leave with a \$500 increase in their net worth.

As always, if you have comments or concerns contact us.

Member Statistics Report		April 2023	April 2024

ENERGY EFFICIENCY

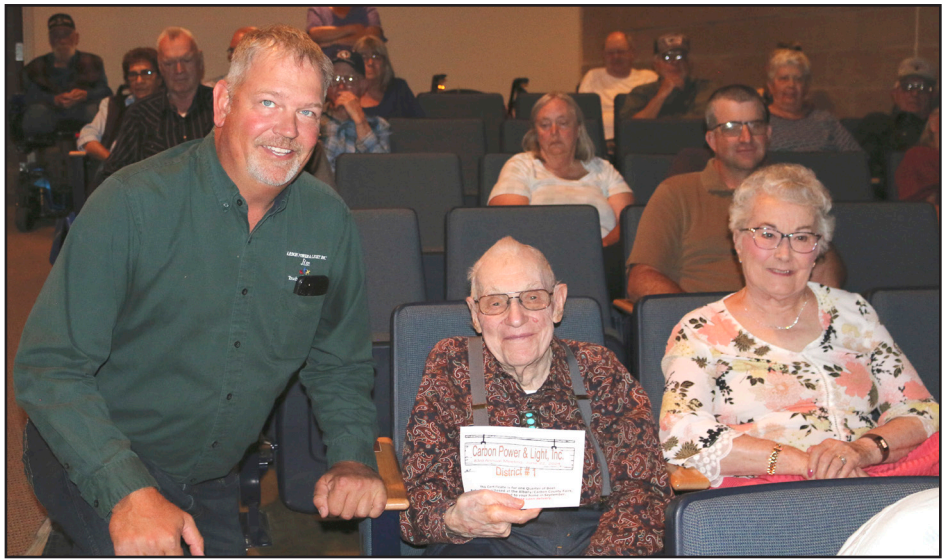

TIP OF THE MONTH

Electricity used to operate major appliances accounts for a significant portion of your home energy use.

Here's an easy way to lighten the load on your clothes dryer. Before you dry a load of damp clothing, toss in a clean, dry towel. The towel will absorb excess water, shortening the drying time. If your dryer does not include an autosense feature to determine drying time, remember to reduce the timer to about half of what you normally would. Remove the towel about 15 minutes after the cycle begins. Shorter drying times will extend the life of your dryer and save energy.
