7 AM to 5:30 PM

Carbon Power & Light, Inc. • Since 1941

84th Annual Meeting of the Membership

RUSSELL WALDNER

Our Director Election process has started. If you are interested in becoming a Director, contact us for all the details.

Our outstanding Members have brought to our attention that their kwh usage displayed in the SmartHub app is showing usage during outages. When there is missing data SmartHub will estimate the usage based on your meter history. This helps fill the holes in hourly data that is created from data acquisition issues. We are working to improve the algorithm from this validation, estimation and editing (VEE) process. Bills are calculated from previous billing meter reading date to current billing meter reading

SAVE THE DATE
Annual Meeting is
June 28, 2025!!!!

date and does not use the VEE processed data. When you have a 20 plus hour outage you learn things. We hope we never have another learning session like that again.

Our Board of Directors has started a General Manager search due to the pending retirement of the current General Manager. If you know any qualified candidates that may be interested, direct them to our website for all the details.

As always if you have comments or concerns please contact us.

Member-Owned Service - Proud

We are currently searching for a number of Member-Owners that had service with us for whom we've attempted to send capital credit checks to but were returned undeliverable. If you recognize anyone on this list or are the heir of their estate, please contact us. THANK YOU.

ENERGY EFFICIENCY TIP OF THE MONTH

Turn your suds into savings. Lower your energy use in the laundry room by washing clothes with cold water whenever possible, as heating water accounts for most of the energy used in a laundry cycle. Wash full loads to make the most of energy savings, and use high-efficiency detergent designed for cold washes. For drying cycles, clean the lint filter before each load to improve airflow and use dryer balls to reduce drying time.

Member Statistics Report		Jan 2024	Jan 2025
Financial			
Total Utility Plant		\$58,617,885	\$62,931,193
Cost of Purchase Power		\$960,405	\$1,087,400

Avg. Residential kWh Used		1031	1121
Avg. Residential/Rural Bill		\$149	\$175

NRECA Lineman Appreciation day is April 18, 2025. Thank a lineman when you see them.

Pictured is Garrett Ricketts, Carbon's 4th year apprentice lineman. He volunteered to join the 2025 Oregon Empowers project that included Wyoming partners. They are electrifying rural Guatemala by running 3.5 miles of primary, 1,000 feet of secondary and wiring 28 homes.

Carbon welcomes any comments or questions members may have. If you have a question on any part of the cooperative business, please write or email the cooperative and we will see that your question is answered. *Dave Stolns* Mail comments to Carbon Power & Light, Inc. P.O. Box 579, Saratoga, WY 82331, ATTN: Newsletter or email info@carbonpower.com.
